		New Jo
		E-cadem

Glendale Community College Show Low Unified School District

School-Psychologist.com has a staff of AZ certified School Psychologists who provide contract and as-needed flat-fee psycho-educational testing to local public and charter schools as well as community colleges within the Phoenix metro and Prescott communities. Our rates vary from \$300.00 to \$400.00 depending on the type of evaluation requested.

We are trained to help schools identify children and adults with suspected handicapping conditions, including learning disabilities (with processing deficit analysis using CHC theory, if requested), dyslexia (with phonological awareness assessments), emotional disturbance, attention deficit disorder, autism, and mental retardation. We are also available to consult and train special education staff in special education procedures.

We specialize in writing comprehensive evaluation reports so special education teachers can immediately integrate our data and recommendations into IEP's. If you have a need for psycho-educational services or have additional questions, please feel free to call 602-751-1384.

*References, Resume, Certification, and Fingerprint Card, and Psycho-Educational Evaluation Reports in .pdf. are available upon request.
